1. What is the TrendFam Program in a nutshell?

TrendFam is a commission based influencer program designed to encourage the creation of product related content on any social media platform a content creator wants (ie. Snapchat, Instagram, TikTok, Twitter, Facebook Group).

We enable influencers to share content 24/7 that organically fit to their lifestyle and followership demand by simply sharing their desired product, brand and category links.
As Trendyol, in GULF region we are operating actively in 6 countries: KSA; UAE; KUWAIT

2. Earning model

We have two earning models that influencers can benefit from:

1- Link commission: Influencers are rewarded with 150%* link commission for each new buyer who shops from Trendyol; 50% commission for each returning buyer who shops from Trendyol on the net revenue from shared link. Links are tracked for 2 days cookie duration.

2- Code commission: Each influencer receives a unique personal code name. Influencers are rewarded with 5% code commission for any net sales from the promo codes when the link is not used for purchase.
- Codes cannot be used to shop from electronics products
- Codes cannot be used on global brands

*Commissions are paid from the net income Trendyol generates from all sales, after discounts of products are removed.
*From the net revenue, 12% Tax is deducted automatically on all orders. For cancellation & return; for all payments made with a credit card at checkout, 18% is deducted automatically and for all payments made with cash on delivery option 50% of canceled/return fixed rate is deducted. Please note if an influencer has more than 50%

of cash on delivery realized return rate, Trenyol has the right to deduct additional earnings from the canceled/returned orders.

3. How to apply & application conditions

What are our application conditions?
- Minimum 10K followers on Instagram, Snapchat, TikTok, Twitter, Facebook Page
- Residency in UAE; KSA; Kuwait.
- Each influencers need to join via selecting an agency partner

Here is our TrendFam Influencer Program application form:
https://influencer.trendyol.com/
Note: Influencers need to apply with an e-mail the same as they signed up for Trendyol. So it's critical that an applicant downloads the Trendyol app first from Google Play Store or Apple Store and creates a customer account on Trendyol and then applies to TrendFam Program with that email 1 day later. The applications that are created on the same day are not verified yet.

4. Registration Process

I. Approval Process

Applications are reviewed on a daily basis on weekdays.
After each application filled in by selecting your agency, you will see each application detail on your "Agency Application List"
- This list is to show all applications who chose your agency.
- You will be able to see their registration status to track
- Rejected: Meaning this talent is rejected, which might be due to several reasons:
    - 1- Account not found: If the username / social media handle link the influencer added is not verified with an actual user
    - 2- Below 10K followers: If the influencer has applied with a social media account less than the minimum follower criteria
    - 3- Irrelevant account: If the account content is not suitable to the program or engagement rate is low
    - 4- Trendyol email not found: If the influencer's email has no account on Trendyol base data (If an influencer is rejected for this reason, please ask them to create an account on Trendyol first,and then apply again)
    - 5- Already registered under an agency: If the influencer is already in the program with another agency. (If an influencer is rejected for this reason, please ask them to email our group email to switch under you)

- 6- Double registration: If the influencer is already in the system under your agency but applied again (This means this talent is already in the system but is not even aware they can start, so we ask you to reach out to those talent and contact them to show guidance)

To ensure our program only accepts influencers that you have given consent to be responsible for, we have added a step before we take into evaluation each influencer.

How do you verify you approve an influencer to be registered?
1- - First, our team reviews the applications. Only the ones we approve are forwarded to you via the agreed email address, where you can approve or reject them. Applications rejected by us will not come to you, but you can track them (including reasons for rejection) directly in the sheets.
2- To address occasional issues with approval emails and to make the process more automated, we've introduced a new tab called "Approval Waiting" in your Looker files .
3- In this tab, you will find the same approve/reject links we share with you via email.
What's next after an influencer is approved?
1- All approved influencers appear on your main agency document under "Registered Influencers"
- Here you can see: registered email, username, entry date, country, code name, platform name
2- Each influencer approved & appearing on your list can start sharing +1 day later after the entry date for tracking
3- Each influencer receives their code name with details.

We expect you to reach out to each influencer under your agency and guide them on the entire process from link creation to report tracking to tips to improve the content to maximize their potential.

II. First Time Share Coins

We aim to encourage talents who join our system to shop on Trendyol using coins, so they can share even more of the items they purchase from us!
How does it work?
- When a new influencer joins the program, if they share a story within the first 7 days after the entry date and get a minimum 50 sessions on their link on a day's share, they will earn first time share coins.
- First time share coins will differ for each influencer depending on the follower

#.Please see below the follower ruleset for earning first time share coins:

Follower Ruleset	Coin Amount
Hidden Follower	$50
10K-49K	$50
50K-99K	$100
100k+	$150
500k+	$200
1M+	$300

PS: All influencers should start sharing one day later of their entry date for data tracking. Failure to do so may result in inaccurate data, and in such cases, Trendyol reserves the right to withhold any rewards, without limitation.

5. Coin Usage

a. What are Coins and how to use Coins?

- Influencers can only see the coin from the app region they are registered in!
- Vouchers are added in checkout section while payment seen as “coin”.

Please note: Influencers will be able to use the coin amount based on the basket order value. Influencers will not see the total coin she/he has instead will see eligible coin value based on basket size. If basket size is increased, more coins will be used.

*Coins cannot be used on electronic purchases.
**If an influencer makes a purchase from another influencer’s link using coins, the influencer whose link is used for shopping will not be eligible for any commission.

There are 2 types of coins:

1- Reward Coins: Any coin earned from an in-app engagement tool, spin wheel etc.
- A customer/influencer can use max 15-20% of the order using reward coins.

2- Refund Coins: Any coin influencer earns from bonus, monthly coin, referral, first time share, refund from payment on delivery or refund from an order.
- A customer/influencer can use all coins 100% for any purchase.

Here is a demo video: https://www.youtube.com/shorts/IzlsnnlTkJw

b. Coin Program Rules

The Coin Program is a loyalty program that's available on the Platform. The Coin Program is issued by Trendyol DWC-LLC ("Trendyol"). The Program enables influencers to accumulate non-cash points through a variety of actions they take on the Platform. Such kinds of interaction activities expected from influencers provide non-cash Trendyol Coin points where Coins will be used to make payments for their next shopping orders on the Platform.

1. Eligibility
    - Trendyol Coins ("Coins") may be available to influencers participating in Trendyol's affiliate marketing program.
    - Coins will be granted to influencers who:
    - Share their first links within the first 1 week after registration ("Newcomer Coin", a one-time reward), excluding referred influencers (who are part of a separate referral bonus program).
    - Participate in bonus campaigns where specific actions or targets are rewarded with Coins. These campaigns may include additional terms and conditions, which will be communicated in advance via email. By participating in a bonus campaign, the influencer agrees to the specific terms and conditions applicable to that campaign.
2. Voluntary Program
    - This Coin Program is a voluntary service provided by Trendyol, which reserves the right to modify or terminate the program at any time with future effect. The fact that an influencer has received Coins in the past does not create any entitlement to receive Coins in the future. Any changes or termination of the program will not affect Coins already awarded.
3. Opting Out
    - Influencers who do not wish to participate in the Coin Program, or wish to stop participating, can opt-out at any time by sending an email to: trendfam.ar@trendyol.com.
4. Coin Expiration
    - Coins will expire 30 days after being awarded. Once expired, Coins cannot be reinstated or refunded.
5. Use of Coins
    - Coins can be only used to purchase any product on the Platform, except products listed in the Electronics category.
    - Influencers may use Refund coins to cover 100% of the total purchase value for eligible products.
    - Coins used for purchases made via influencer links will not be counted towards any commission earnings.

○ Coins are not redeemable for cash and withdrawal of Coins is not allowed.

6. Separate from Commission
   ○ The Coins earned through this Coin program are separate from any commission
   earned by influencers under the affiliate program. Coin rewards will not impact or replace commission payments.
7. Notification and Tracking
   ○ Influencers will be notified by email when Coins have been awarded.
   ○ Influencers can track their Coin balance within the Platform's app, where it will be displayed alongside customer Coin balances.
8. Other Conditions
   ○ Trendyol reserves the right to modify or discontinue the Coin Program at any time, with prior notice provided to influencers in the influencer panel.

6. Personal Influencer Codes

Once an influencer is approved, she/he receives a unique personalized code name (ie: TRENDYOL). All codes for each influencer give the same discount amount. Influencers can share their code name on their social media account and make earning once their code is used at checkout.

Code Percentages:

- All Trendyol first time shoppers get 20% discount (one time only) Max discount: $20, Minimum basket value: $20
- All shoppers get 10% discount on second purchase, Max discount: $1, Minimum basket value: $40
- All shoppers get 5% discount, Max discount: 1 SAR, Minimum basket value: $40

returning buyers. Code is only applicable from Trendyol app and cannot be merged with other promo codes.

*Codes cannot be used for electronics products.
**Codes cannot be used by global brands.

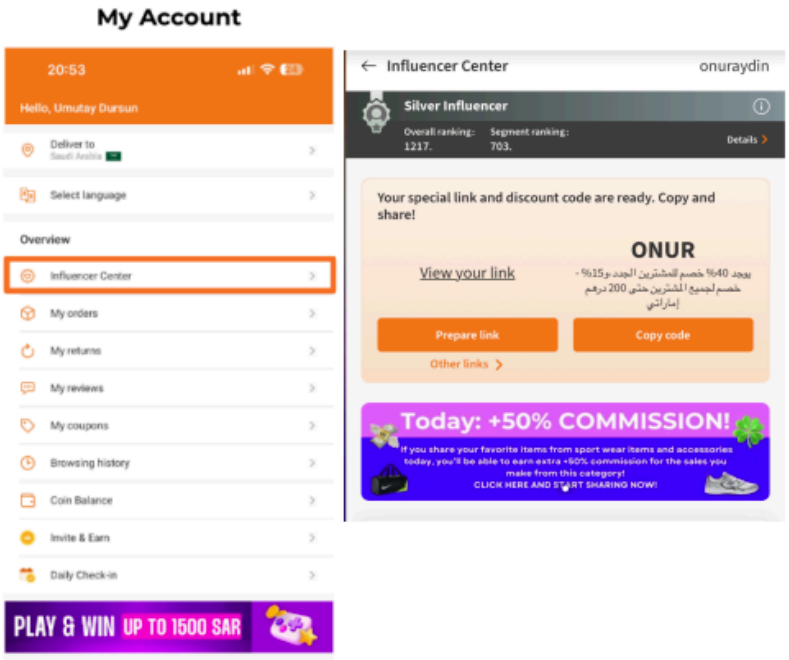
Please note, for any reason, Trendyol reserves the right to modify any terms, percentages or completely remove the Personal Influencer Codes model at any time, without prior notice or any compensation

7. How to create trackable links?

Here is a great demo of how an influencer can create trackable links, watch now!
https://www.youtube.com/watch?v=l6ksNMVDwW4
As there are endless possibilities for different link creation, let us share a few demos for different types of links:
1- Product Links: If an influencer wants to only share 1 item sold on Trendyol
- Example demo: https://www.youtube.com/shorts/o8kW9GxnO8M
2- Category/Boutique Links: If an influencer wants to share a certain category sold on Trendyol (ie. Dresses)
- Example demo: https://www.youtube.com/shorts/4AKJKo83UGc
3- Search Result Links: If an influencer wants to share a link by searching a keyword on search
- Example demo: https://www.youtube.com/shorts/uY-G2t8sZUU

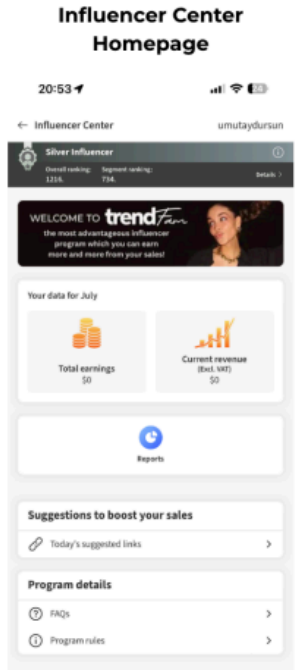
8.Influencer Center Overview

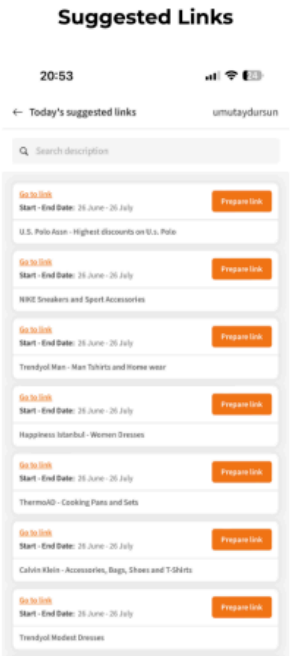
Same as we do for our agency partners, we want to guide our influencers with data transparency so this is a hub center designed only for Influencers to track their performance and make adjustments, better understand their audiences' buying habits and be notified of the sales campaigns.
Under "My Account" tab, only Influencers have section called, "Influencer Center"



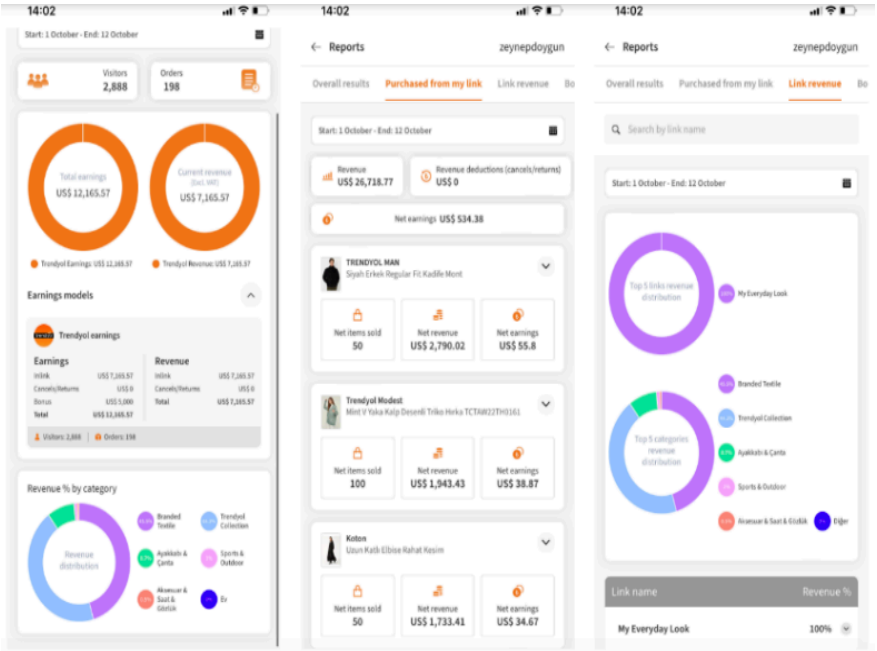
1. Influencers can see their code name
2. Influencers can see if there any bonus offers
3. Our team creates a bestseller trackable link for each influencer so they can directly copy the link and share

4. Influencers can see their Total earning and Current Revenue they made, same as in the agency dashboard
5. If they click on " Today's Suggested Links" they can see personalized trackable links that are prepared by algorithm with most sold products & top sale products on a daily basis. We really encourage them to try a few links from here and see if they increase their sales.





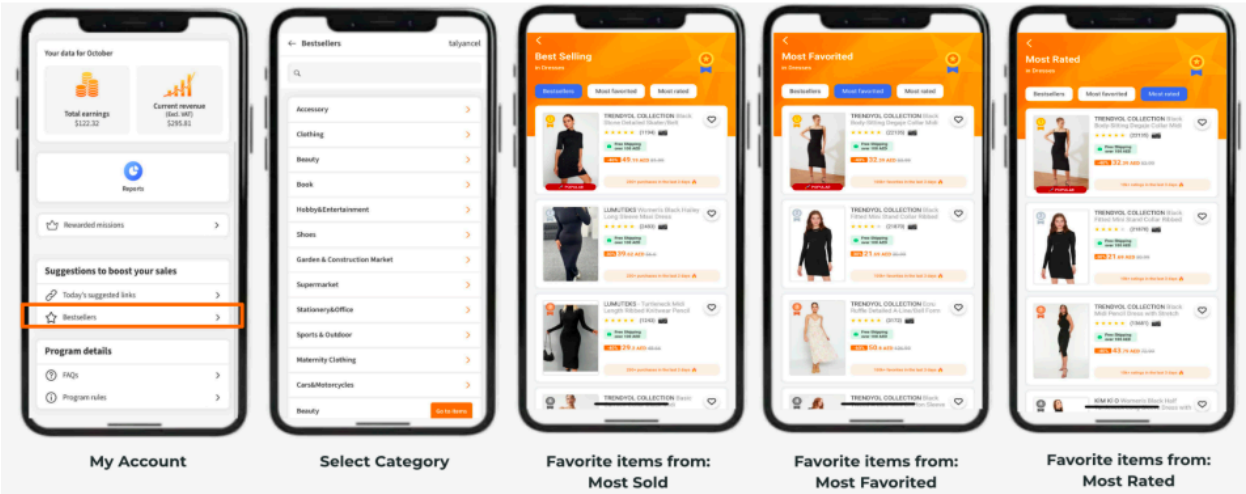
6. If they click on "Reports" they can see
a detailed breakdown of the earning data. They can also see Revenue by category to understand what categories the followers are buying the most. This is important so the influencers can change the link content they share to meet the needs of their followers.
7. Under the " Purchased from my link" section, they can see the exact items purchased from the link in quantity.
8. Under the "Link Revenue" section, they can see the revenue they made for each link they shared, so they can again adjust sharing more of that collection.



**Agency looker dashboard and Influencer Center have the same data values.

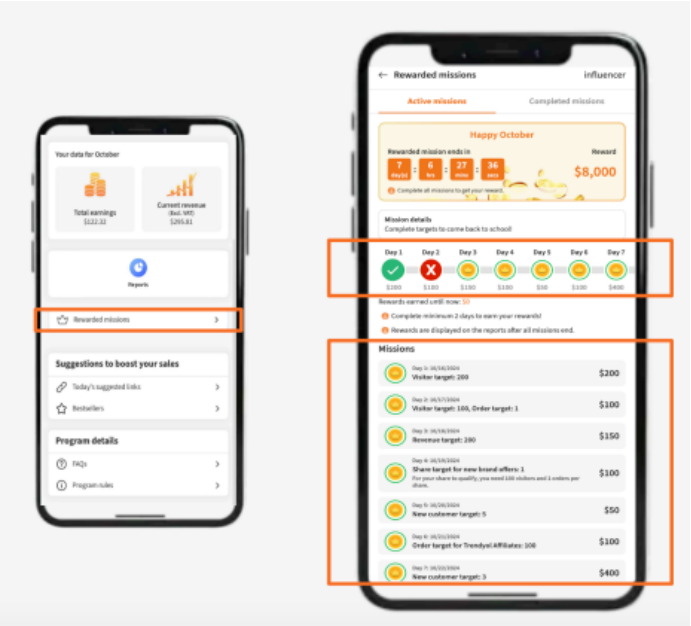
New Feature: Bestsellers

We launched a new feature in Influencer Center so influencers can find the most sold, favorite and rated items across all Trendyol shoppers to add to their links.
Influencers can easily select any category under Bestsellers and favorite any item they want to add to their own collection.



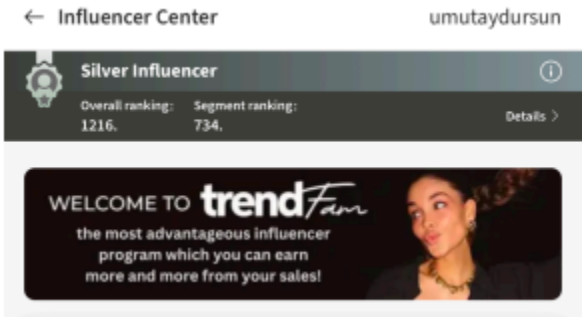
New Feature: Bonus Mission Screen

Under “Reward Missions” from now on influencers will be able to see the bonuses offered to them. An influencer will be able to see:
- The structure of the bonus detail
- Bonus start and end date
- Daily target & mission they have to achieve
- Cash / Coin amount they can earn daily & in total The bonus screen is updated on a daily basis with results and influencers earn their rewards automatically.



9. Ranking & Segmentation

Inside Influencer Center, each influencer can see their:
1- Segment Name (Platinum, Gold, Silver, Starter)
2- Segment Ranking: Ranking amongst the influencers in the same segment
3- Overall Ranking: Ranking amongst the entire influencer community



Overall Ranking Calculation At the end of each month moving forward, top 1,000 influencers will earn monthly coins to shop on Trendyol. You can track your ranking throughout the month and chase better to increase your ranking to increase your monthly coin amount!

PS: Overall ranking data can change everyday depending on the earning each influencer makes. Talent who is in the top 1,000 influencers on the last day of each month will continue to be eligible!

You can see the coin bonuses you'll receive based on your ranking each month here:

Ranking among all influencers	Coin bonus (USD)	Week that coin will be applied
1. - 10.	$1,500	First week of each month
11. - 20.	$1,000	First week of each month
21. - 50.	$500	First week of each month
51. - 125.	$250	Second week of each month
126. - 250.	$100	Second week of each month
251. - 500.	$75	Third week of each month
501. - 1000.	$50	Third week of each month

Monthly Segments:

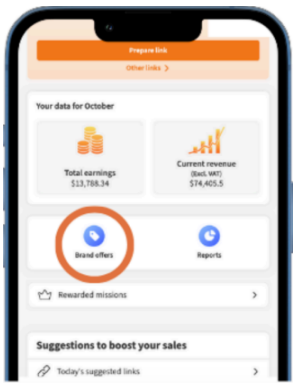
Segments consisting of 4 main groups (Starter, Silver, Gold, Platinum) are calculated based on the net revenue and visitors you bring in each month. You'll be placed under the relevant segment according to your previous month performance.
- Segments are calculated for a monthly basis, and at the end of each month segmentation can change depending on previous month performance.
- Your ranking in the segment will be updated on a daily basis based on cumulative influencer pool performance.

The rules for these segments are as follows:

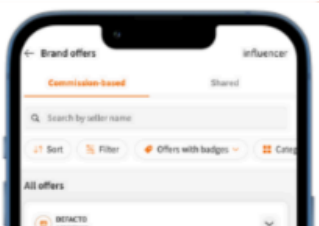
Group Name	Ruleset
Platinum	Influencers who made: Net revenue > 15K $ and Visitor > 15K in last month
Gold	Influencers who made: Net revenue > 2K $ and Visitor > 2K in last month
Silver	Influencers who couldn't reach the minimum limits for Platinum and Gold
Starter	Influencers who have spent less than 30 days in TrendFam program

10.Brand Offers

Main advantages of Brand Offers:
1- Higher commission rate for seller's products
2- 7 day attribution window instead of 2 days
3- Getting to know by brands and promoting variety of brands and products



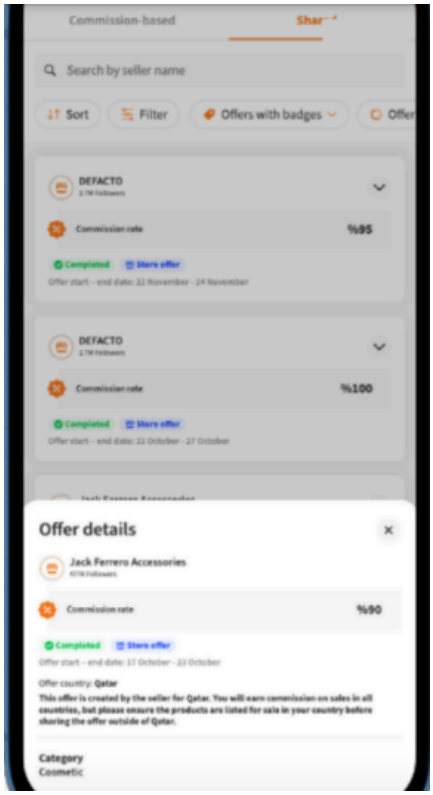
1. Where can I access my Commission-Based Brand Partnership offers?
You can access the Commission-Based Brand Partnership offers on the "Brand Offers" page, located under the Influencer Panel.



2. How to use the “Brand Offers” page?

The "Brand Offers" section consists of two main tabs:
"Commission-Based" and “Shared”

- Commission-Based Tab: Under this tab, you can view all commission-based brand partnerships created by sellers. The offers are listed in chronological order based on their release date.
- Shared Tab: This tab displays all the offers you have shared, organized from the most recent to the oldest according to the sharing date.



3. Offer Approval & Link Sharing Process

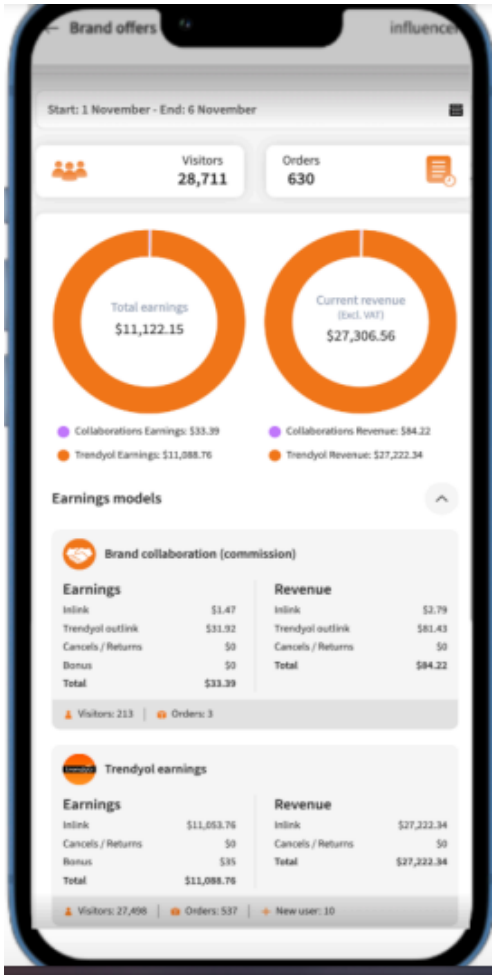
In the offer details, you'll find the name of the advertisement, the commission rate set by the seller for the link, the sharing date, and seller information. You can access the sharing details by clicking on the arrow icon next to it.

- The offer details section will highlight features of the brand's products that you can emphasize in your shares. We recommend including this information in your posts to help increase your sales.
- When you click the "Go to Store" button, you'll be directed to the seller's store, where you can review the seller and their products. However, there's a very important note: when you visit the store, you should not obtain a link through the share icon. You must return to the influencer panel by clicking the back arrows. To benefit from these commission rates, you should only obtain links through the influencer panel; links acquired from within the store will only yield standard affiliate earnings.

When you click the "Share Link" button, your unique Commission-Based Brand Partnership link will be created, and you can start sharing this link! All offers you click the share button for will appear in the "Shared" tab. You can share the same link from here until the offer's expiration date.

4. Link Measurement Model and Commission Rates

- The commission rates in the offers will be determined by the sellers, but they will always be higher than the standard affiliate model!
- Seller commission rate will only be applied to the seller's products. If a customer buys a product which does not belong to the seller, you'll still earn commission from this product based on the rates of TrendFam affiliate commission rates at that time.
- In our existing affiliate program, the link tracking duration is 2 days, but in the Commission-Based Brand Partnership, it will be a full 7 DAYS! This means that even if your follower clicks your link and doesn't complete their order at that moment, they can still make a purchase from a product linked within your link within 7 days without needing to click your link again, and you will still EARN!
- An influencer can earn from only one model from the same order. For example, if the linked product in the commission-based brand partnership is purchased within 7 days using the normal affiliate link, you will earn from the brand partnership but not from the affiliate earnings.



5. Reporting

You can access the performance of Commission-Based Brand Partnership shares in the "Reports" section of the Influencer Panel.

a. "Overall Results" Tab: Under the overall results tab, you can see your earnings from commission-based brand partnerships. The "Current Revenue," "Total Earnings," and "Visitors" sections include your results from the Commission-Based Brand Partnership.

b. "Brand Collaborations" Tab: In this tab, you can access detailed performance metrics such as "inlink/outlink earnings, revenue, and users" for each offer.

Date Filter: This filter displays the offers from which you generated earnings within the selected date range. Remember, you can earn from the link you shared for 7 days!

To see the total performance of an offer, you need to filter up to 7 days after the date you shared it.

11. Abusive Actions & Consequences

What does 'abusive actions' mean?

TrendFam is a revenue-sharing based influencer program. We expect our influencers to share links with their social media audiences. While we understand that sometimes influencers may share links with relatives and close friends, we prefer to pay for sales generated through social media audiences because we offer the highest commission rates in the market. Sales to relatives and close friends are considered an abuse of these high commission rates.

It's okay if an influencer makes sales to his/her social media audience, and sometimes shares links with relatives/close friends. However, it's not okay if the influencer makes sales mostly to his/her relatives/close friends.

How do you detect 'abusive actions' and what is ‘abuse risk score’?

We have an 'abuse risk score'. To identify influencers who abuse the system, we use various parameters to calculate a risk score.

What are the consequences of 'abusive activity'?

As Trendyol we have a budget to invest in influencer marketing. We aim to spend it effectively on partners who create the most value for Trendyol. Therefore, we detect abusive activities and reserve the right to end our partnership with those influencers without paying the amount that is generated by abusive activity. Trendyol is the only source of truth and decision maker here.

How is the score calculated, and what parameters are included?

We don't share the exact formula to prevent it from being manipulated, but we check outlier cases in each metric to ensure strong evidence of abuse. If you believe there has been a mistake, you can always share your feedback with us. We reserve the right not to accept the feedback.

Is sharing links in close groups such as Whatsapp, Telegram, Facebook groups called 'abuse'?

Not exactly. We see these groups as social media, so it's allowed. We just care about it being a collusive transaction. We understand it's a collusive action with the method we have developed. This method calculates a risk score, and we simply don't want to take that risk.

How can I see my risk score?

We share high risk score influencers and their score with the agencies. If a score is not at a risky level, we don’t share them with the agencies. If a score is at a risky level, we

warn the agencies before taking action. If we see the score is still high, we take the necessary action.

What are other potential abuse cases for an influencer to be removed from the system and/or not receive the earnings?

1a) Talent who create multiple accounts to use on the same device or same GSM number
We identified several influencer accounts creating multiple accounts with different emails and fake social media handles and making purchases/creating links from the same GSM and device.
Our program strictly prohibits an influencer who creates more than 1 account and create earning or use the same phone device/GSM for multiple different influencer accounts to make purchase

1b) Talent who announce their codes and links on discount pages & bid for " Trendyol " keyword to get visibility
It's not allowed to:
- Promote any influencer discount code on discount websites
- Bid on Trendyol brand terms and promote code & link via brand name.
Any talent who is detected will be:
- First warned and asked to remove the code.
- Second, if no action talent will be removed from the program.
